

One of the best parts about being an American is the ability to vote in the voting booths, as well as to vote with my dollar. There is a reason I choose to pay XM radio every month, I hate what free radio has become and I demand more. Unlike cable or satellite television, my opinion doesn't count when it comes to traditional radio. Please don't make life anymore difficult than it needs to be, let me have my local programming via XM when i need it!
